

I AM

Christian Scherlipp

FULLSTACK DEVELOPER

Turning ideas into interactive web experiences.

Let's talk!

About me

Hi! I'm Chris! I am a passionate Fullstack developer who loves building modern, user-friendly web applications. I enjoy turning ideas into interactive experiences. I am always eager to learn new technologies.

My path here wasn't typical: I started out as a bricklayer, working in that field for several years before moving into the industrial sector. A workplace accident led me to programming and prompted me to begin retraining—in hindsight, exactly the right next step for me.

Open to new opportunities
Remote or on-site

Always learning
New technologies & better solutions

Skills

Technologies I Work With

Angular

Bootstrap

CSS

Firebase

Git

HTML

JavaScript

Material Design

Php

Python

REST-API

Rust

Sass

Scrum

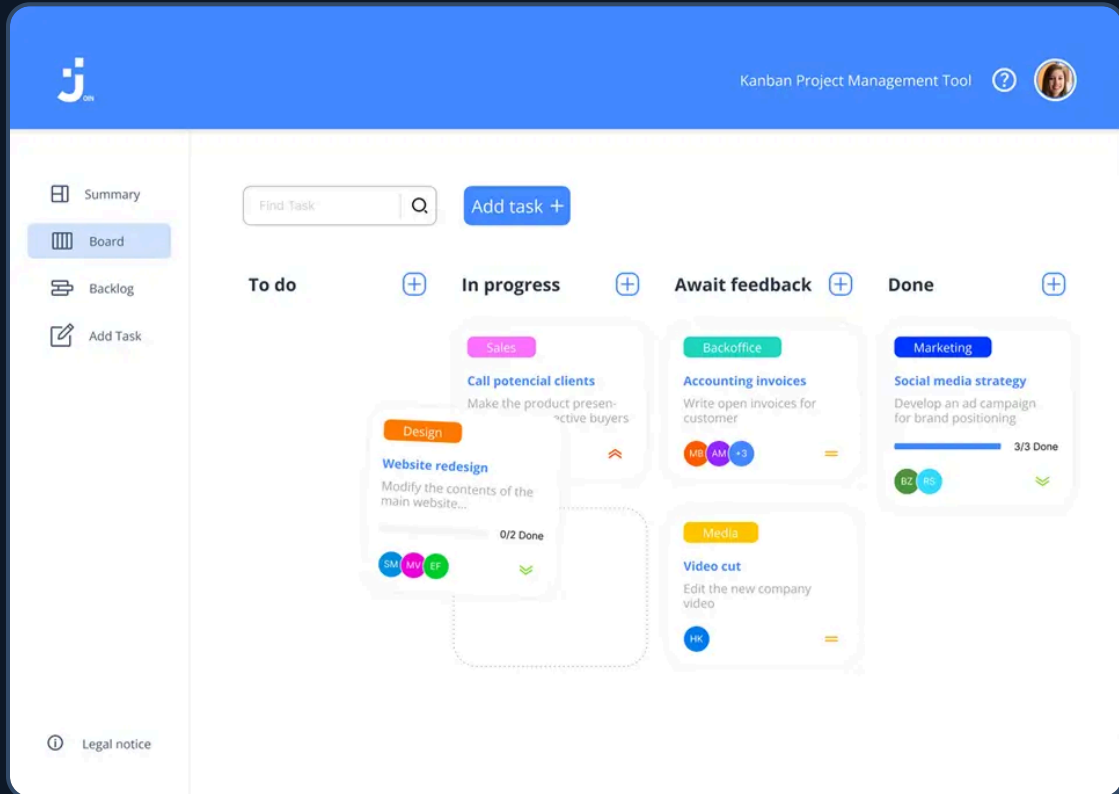

TypeScript

Wordpress

■ Learned ■ I have a special interest in learning this

My Projects

Join

CSS HTML Firebase Angular TypeScript

Task manager inspired by the Kanban system. Create and organize tasks using drag and drop, assign users and categories.

GitHub

Live test

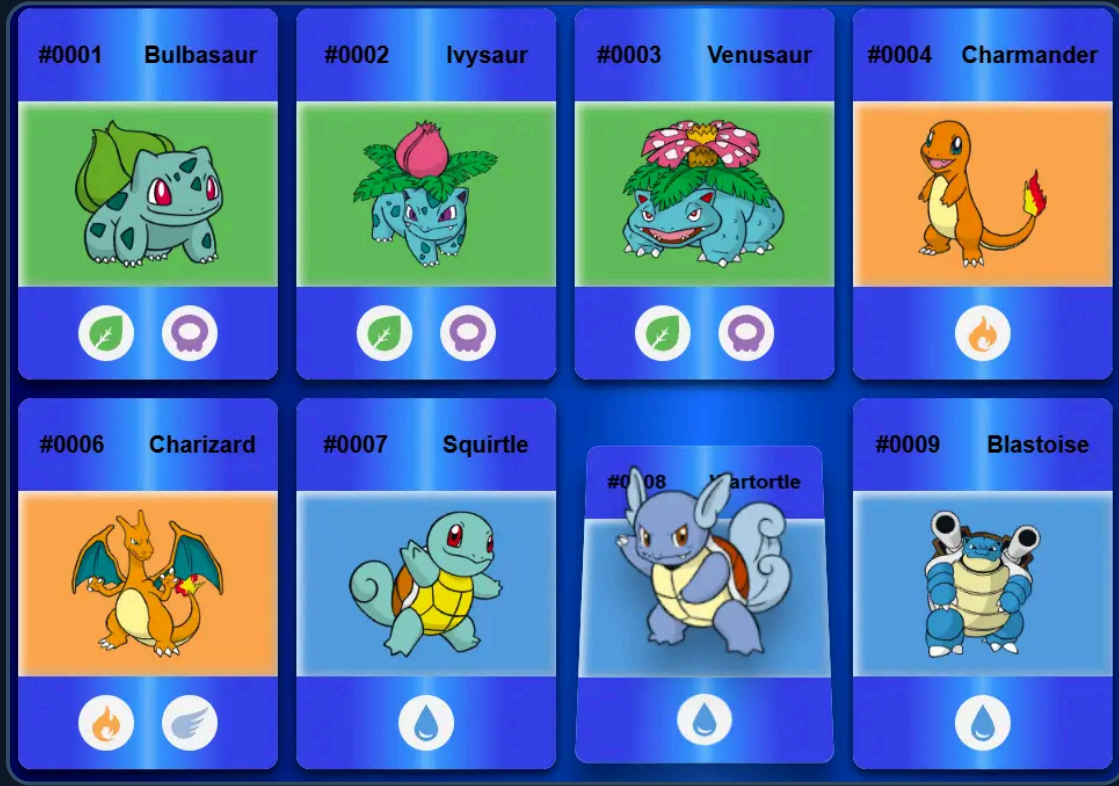

Sharkie

JavaScript CSS HTML

2D jump'n/run in which you swim as a shark through procedurally generated levels, fight enemies and an end boss, and collect coins. Includes menus, a shop, a sound system and touch controls for mobile devices.

GitHub

Live test

Pokedex

HTML CSS JavaScript PokeAPI

Interactive Pokédex web app built on the PokéAPI. All Pokémon as cards with lazy loading, search and a detail dialog with tabs for About, Base Stats, Evolution and Moves. Also includes a loading screen and navigation through the dialog.
